

## ADUG 2016 Symposium Prize List for Sydney

Company	Prize	Value Per	Sydney Qty
<b>Embarcadero</b>	<b>RAD Studio Architect</b> RAD Studio™ is the fastest way to develop cross-platform Native Apps with flexible Cloud services and broad IoT connectivity. It provides powerful VCL controls for Windows 10 and enables FMX development for Windows, Mac and Mobile. RAD Studio supports Delphi or C++ with a wide array of services for Enterprise Strong Development™. Look for increased memory for large projects, extended multi-monitor support, improved Object Inspector and much more. RAD Studio delivers 5x the speed of development and deployment across multiple desktop, mobile, cloud and database platforms including 32-bit and 64-bit Windows 10. (Note: Licence only, no maintenance included)	\$ 6,240	1
<b>Addictive Software</b>	<b>Addict 4 Professional</b> Addict 4 is a professional native VCL component suite that provides end-to-end solutions for adding spelling check and thesaurus support to your applications. A first-class spelling checker capable of checking nearly any control available. Live-spelling (wavy red underlining of misspelled words) to Edit controls, Memo controls, RichEdit controls and many 3rd party controls. Automatic thesaurus lookup and word replacement to add contextual thesaurus support to your applications. Complete text parsing, dictionary, suggestion, auto-correction and thesaurus APIs for integration into nearly any application.	\$ 399	1
<b>Axialis</b>	<b>Pure Flat 2013 Stock Icons – Bundle 20 sets</b> 20 icon sets, comprising 30,521 icons. This icon set is designed for use in ribbons & toolbars of Windows applications. The style is pure, flat and simplistic with solid colors, making them suitable for applications in the style of Windows 8 and Office 2013. Provided sizes are compatible with ribbons and toolbars of Windows applications but can also be used in websites, illustrations and mobile applications. Icons are provided in sizes 16x16, 20x20, 24x24, 32x32, 40x40, 48x48, 64x64 and an extra large set 256x256. Normal, hot & disabled states are provided for all formats. Available file formats are PNG, ICO and BMP (256x256 in PNG format only). Icon sizes comply with Microsoft specification for creating DPI-aware applications (96-DPI to 192-DPI screens).	\$ 446	2
<b>Axialis</b>	<b>Ribbons &amp; Toolbars Stock Icons – Bundle 20 sets</b> 20 icon sets, comprising 25,559 icons. This icon set is designed for use in ribbons & toolbars of Windows applications. The style is dynamic and professional, making them suitable for a large variety of applications. Provided sizes are compatible with application ribbons and toolbars but can also be used in websites. Icons are available in sizes 16x16, 24x24, 32x32, 48x48 and normal, hot & disabled states. Provided file formats are PNG, ICO and BMP. Colors are coded in RGB with alpha channel transparency in PNG and ICO icons. BMP icons are coded in RGB with magenta areas to define transparency.	\$ 372	2
<b>Axialis</b>	<b>IconWorkshop Professional</b> Create, Edit, Convert icons for Windows XP, Vista, Windows 7, 8 & 10, MacOS, iPhone & Android. With IconWorkshop make your own icons for Windows, MacOS and Unix. Create Windows icons up to 768x768 for Windows 10 and Macintosh icons up to 1024x1024 for OSX 10.11 El Capitan. Unix/Linux & Android OS use PNG icons. IconWorkshop creates PNG images with alpha channel in a few clicks including from existing Windows and Mac icons.	\$ 104	2
<b>Blaise Pascal Magazine</b>	<b>Twelve month subscription to Blaise Pascal Magazine</b>	\$ 62	1
<b>Blaise Pascal Magazine</b>	<b>Book: Computer Math &amp; Games in Pascal by David Dirkse</b> Softcover book with PDF file, of 87 chapters, covering 53 projects with source code and compiled programs (exe). All source code downloadable. Play board games, solve puzzles, operate a vintage mechanical calculator, Produce 3-dimensional computer art, generate lists of prime numbers, explore and draw any mathematical function. Solve systems of equations, calculate the area of complex polygons. Draw lines, circles and ellipses. Resize, rotate, compress digital images. Design your own font, generate and reduce Truth Tables from Boolean algebra. For all projects: the math behind is thoroughly discussed.	\$ 45	0
<b>Devart</b>	<b>Single standard licence for any Devart Delphi Data Access Components</b> Winners choice of: EntityDAC; Or/ Universal Data Access Components; Or/ Oracle Data Access Components; Or/ SQL Server Data Access Components; Or/ MySQL Data Access Components; Or/ InterBase and Firebird Data Access Components; Or/ PostgreSQL Data Access Components; Or/ SQLLite Data Access Components; Or/ VirtualDAC	\$ 200	1
<b>DevJet Software</b>	<b>Documentation Insight Enterprise</b> Documentation Insight integrates into RAD Studio IDE to enable you naturally browse and document source code. It also helps you to produce professional API documentation files and deliver to your customers. - Seamlessly integrates into RAD Studio IDE; - Naturally document source code (WYSIWYG); - Produce and publish rich professional API documentation (Html/CHM/MSHelp2/H&M); - Publish and deliver to your customers.	\$ 425	1

Company	Prize	Value Per	Sydney Qty
<b>EC Software</b>	<b>Help+Manual 7 Professional</b> Help+Manual is a documentation tool and content management system for both single and multi-author editing. All publishing formats supported by Help+Manual are generated from the same project. This means you only have to edit your help and documentation once. Forget about the nightmare of "converting" your documentation every time you change anything. Help+Manual publishes all standard Windows help formats, from HTML Help to Webhelp to Visual Studio Help. It also generates Adobe PDF, Microsoft Word documents and ePUB e-books – the standard format supported by the Apple iPad – as well as Amazon Kindle.	\$ 797	1
<b>ESB Consultancy</b>	<b>ESBPCS for VCL</b> ESBPCS for VCL (ESB Professional Computation Suite provides a huge collection of Routines and Components to make Data Entry and Manipulation easier for both Developers and their end-users. This is a collection of over 6000 routines/methods and over 235 classes/components in over 140 units for Embarcadero (formerly CodeGear / Borland) Delphi and C++ which are aimed at making "data entry & manipulation easier" for Developers and their Customers. Components included cover Integer Edits, Float Edits, Hex Edits, IP Address Edits, Percentage Edits, Date Edits, Time Edits, Date/Time Edits, Month Edits, Time Edits, Complex Edits, Fraction Edits, Currency Edits, Calculator Edits, Calendar Edits, Button Edits, Degree/Minute/Second Edits, Comboboxes, Month Comboboxes, Day of Week Comboboxes, Time Zone Comboboxes, Country Comboboxes, Duration Comboboxes, SpinEdits, Month SpinEdit, DOW SpinEdits, Duration SpinEdits, Currency SpinEdits, Vector Edits, Matrix Edits, Calculators, Calendars, Statistical Analysis, Labels, URL Labels, Math Labels, CheckBoxes, RadioGroups, CheckGroups, Memos, RichEdits and much more	\$ 265	1
<b>ESB Consultancy</b>	<b>ESBUnitConv Pro</b> ESBUnitConv Pro is an Enhanced user-friendly Windows Utility to easily convert between units of measurement. Includes Units for Temperature, Distance, Mass, Area, Volume, Pressure, Velocity, Acceleration, Force, Energy, Power, Fuel Consumption, Flow, Torque, Angles, Time, Illumination, Luminous Intensity, Luminance, Luminous Flux, Density, Angular Velocity, Angular Acceleration, Computer Storage, Data Rates, Dynamic Viscosity, Kinematic Viscosity, Electric Charge, Electric Current, Magnetic Flux, Magnetic Flux Density, Quantities, Radiation Absorption, Radiation Dose, Radioactivity and Thermal Conductivity. Includes the ability to log conversions, print, improved clipboard support, integrated help and much more. Also support for Exponential Notation in conversions and in the pop-up calculator. Special support included for SI Units, American Wire Gauge Table, Circle Calculations and Sphere Calculations.	\$ 22	1
<b>EurekaLog</b>	<b>EurekaLog Professional Single User License</b> Delphi and C++Builder exception tracer tool that gives your application the power to catch all exceptions, memory leaks and detect infinite-loops and deadlocks. It generates a detailed log with the call stack at the point that raised the exception, showing unit, class, method and line number, and displays it on screen and optionally sends it back to you via email or to a Web Server. EurekaLog is easy to use because it's fully integrated into the IDE – just enable EurekaLog for your application and rebuild your application to add EurekaLog's features. EurekaLog does not affect application performance and increases compiled file size by just 0.5% – 4%. You do not need to distribute any additional files with your EurekaLog-enabled application.	\$ 199	1
<b>EurekaLog</b>	<b>EurekaLog Enterprise Single User Licence</b> Per EurekaLog Professional above, with the inclusion of full source code.	\$ 332	0
<b>Gnostice</b>	<b>XtremeDocumentStudio Delphi Ultimate</b> XtremeDocumentStudio Delphi Ultimate is a comprehensive multi-format document viewing, printing, format conversion, document processing and report export component suite for Delphi and C++Builder. Conversion output formats include, PDF, RTF, HTML, XLSX, XLS, TIFF and other image formats. Viewing formats include, PDF, DOCX, DOC, RTF, TIFF and other image formats. Supports both VCL and FMX platforms.	\$ 800	1
<b>Icons8</b>	<b>12 month subscription to access 30,500 icons</b> Windows, iOS and Android in all formats (EPS, PDF, SVG, PNG).	\$ 249	1
<b>Mitov Software</b>	<b>Complete set of VCL and Firemonkey components</b> - AnimationLab Time-line based animations. - VideoLab Complex video processing. - SignalLab Very fast digital signal processing (DSP). - LogicLab Components to assist in decision making. - AudioLab Fast audio processing. - VisionLab Fully featured motion detection. - PlotLab Very fast data plotting/charting/graphing. - InstrumentLab Visual instruments and controls. - IntelligenceLab Artificial Intelligence library. - CommunicationLab Basic serial communications. - Mitov Runtime	\$ 1,865	1
<b>Mitov Software</b>	<b>Mitov Runtime licence with source code</b> Cross platform collection of tools, including: - Advanced RTTI; - Containers – Linked List, Array List, Dictionary; - Automatic class management; - Elements – Tuples, MultiProc, SmartPointer, Delegation; - Threading; - OpenCL; - Serialization; - Reflection; - Mixed Persistent Collections; - Component development framework; - Advanced Design Time API	\$ 52	9

Company	Prize	Value Per	Sydney Qty
<b>NexusDB</b>	Winners choice of: <b>NexusDB Visual Studio Pack Standard</b> For Visual Studio/.NET users, this pack combines the products you need to create first class database applications using your favourite .NET language. Contains ADO.NET Provider plus NexusDB Server and Enterprise Manager binaries. Or/ <b>NexusDB Standard (VCL, DCU)</b> For Delphi/C++ users, Win32: Delphi 7 and up, C++Builder 2007 and up. Win64: Delphi/C++Builder XE3 and up; AppBuilder. NexusDB is a royalty-free database system, with features that rival other heavily licensed products.	\$ 500	1
<b>Nick Hodges</b>	<b>Book: Coding in Delphi by Nick Nodges</b> 242 page softcover book all about writing Delphi code. It's not about the VCL or database access. It's just about how to use the language in the most effective way to write clean, testable, maintainable Delphi code. It covers a variety of powerful Delphi programming features and techniques including Generics, Interfaces, Exception Handling, Anonymous Methods, Collections, RTTI, Enumerators, Attributes, Dependency Injection and Unit Testing.	\$ 53	0
<b>Nick Hodges</b>	<b>eBook: Coding in Delphi by Nick Nodges</b> PDF version of above Coding in Delphi book	\$ 53	1
<b>Nick Hodges</b>	<b>Book: More Coding in Delphi by Nick Nodges</b> 246 page softcover book all about writing Delphi code. Sure, there's a bit about component writing, too, but the main focus is on code. It's all about how to use the language in the most effective way to write clean, testable, maintainable Delphi code. It covers a variety of powerful Delphi programming features and techniques including Patterns, Threading, Parallel Programming, Aspect Oriented Programming, writing SOLID code and more.	\$ 53	0
<b>Nick Hodges</b>	<b>eBook: More Coding in Delphi by Nick Nodges</b> PDF version of above More Coding in Delphi book	\$ 53	1
<b>Nick Hodges</b>	<b>eBook: Dependency Injection in Delphi by Nick Nodges</b> This soon-to-be-released pdf ebook covers Dependency Injection from A to Z. In it you'll learn about Constructor Injection, Property Injection, and Method Injection. You'll learn about the right and wrong way to use the Dependency Injection Container.	\$ 53	0
<b>PJ Design Engineering</b>	<b>Raspberry Pi Pack</b> Comprising: - Raspberry Pi 3; - Case to suit; - Plugpack power supply; - SD card	\$ 100	1
<b>ProDelphi</b>	<b>ProDelphi64</b> ProDelphi is a tool to measure the runtime of programs written in Delphi Object Pascal. The principle of source instrumenting, the sophisticated measurement correction algorithm and the granularity of 1 CPU-cycle guarantee an outstanding measurement accuracy. Even very small or multiple nested functions are measured precisely. After profiling with ProDelphi you know where the bottle neck is, not where it might be. Source instrumenting also ensures that idle times caused by certain Delphi- or Windows- API-functions (e.g. Sleep, MessageBox, WaitForSingleObject etc.) are automatically excluded from measurement. The extremely low measurement overhead guarantees even to measure time critical applications.	\$ 112	1
<b>RemObjects</b>	<b>Escape from Delphi package</b> Package consists of both: <b>Oxygene</b> Oxygene lets you create applications and projects for all of today's major platforms – with one IDE and one great programming language. Oxygene is built on the foundation of Object Pascal, revamped and extended to be a modern language for the twenty-first century. If you are a Delphi developer, you will be right at home with the Oxygene language. Oxygene lets you target all platforms truly natively, and <b>Hydra</b> Hydra is an application framework that allows developers to create modular applications that can mix managed (.NET) and unmanaged ("native" Delphi) code in the same project, creating a seamless user experience while combining the best technologies available from either platform.	\$ 713	2
<b>Scalabium Software</b>	<b>SMEExport</b> The native Delphi components in this suite provide fast and direct data export into MS Excel, XML, HTML, SPSS, PDF and other formats from a DBGrid, Dataset or any VCL control! SMEExport suite 4.99 is a set of component that export data from TDataSet or TDBGrid or any other VCL control (such as TStringGrid, TListView and so on) into such formats as Paradox (if using the BDE) and DBase tables or into a text file (fixed or comma-delimited), HTML, XML, MS Excel, MS Word, PDF, MS Access, SQL-script, Lotus 1-2-3, Quattro, SYLK, DIF, LDAP DIF and other formats.	\$ 75	1

Company	Prize	Value Per	Sydney Qty
<b>Scalabium Software</b>	<b>SMImport</b> The native Delphi components provide fast and direct importing of data from MS Excel/XML/HTML/DBF/Open Office/Paradox files directly without use of any external libraries! SMImport suite 2.92 is a set of components that can import data into TDataSet (any descendant) from a variety of different file formats. Most components support both loading from file and streams so you may load from memory/blob/cgi streams and/or in multi-tier environments. The SMImport suite also contains a user-friendly wizard, the TSMIWizardDlg component, which is a self-contained wizard which guides end users in the importing of any data at run-time via a user-friendly interface to assist with load parameter settings.	\$ 75	1
<b>Scalabium Software</b>	<b>SMMsg</b> SMMsg suite allow you to read/parse the files created by MS Outlook and any other mailer program. You may read the message with all mail information (subject, body, recipients, attachments etc), contact, note, task, appointment, journal, post item.	\$ 75	1
<b>Scooter Software</b>	<b>Beyond Compare Pro</b> Beyond Compare allows you to quickly and easily compare your files and folders. By using simple, powerful commands you can focus on the differences you're interested in and ignore those you're not. You can then merge the changes, synchronize your files, and generate reports for your records. Directly access FTP sites, media devices, WebDAV resources, svn repositories and cloud storage. All from your Windows, Mac OS X or Linux workstation. Beyond Compare includes built-in comparison viewers for a variety of data types. In addition to text, compare tables, images, binary files, registry hives, and much more.	\$ 80	1
<b>Softland</b>	<b>novaPDF SDK Developer</b> PDF software development kit for developers that want to add PDF creation capabilities to their applications on Windows XP/Vista (32-bit and 64-bit)/Windows 7/Windows 8/Windows 10 and Windows 2003 Server/2008 Server/Server 2012. Once installed the SDK will let you convert to PDF any printable information sent by your application. Integration is seamless, end-users will not realize a printer driver is used in the process. Includes: - COM interface to programatically control novaPDF SDK printer options. - Customization tool that lets you configure the novaPDF SDK printer distribution. - novaPDF SDK documentation including several code samples (ASP.NET, C#, C++, Delphi, Java, Ms Access, Visual Basic, VBNet); - novaPDF SDK printer to distribute with royalty free licensing.	\$ 1,200	1
<b>Steema Software</b>	<b>TeeChart Pro VCL/FMX</b> TeeChart Pro charting component library offers hundreds of Graph styles in 2D and 3D for data visualization, 56 mathematical, statistical and financial Functions for you to choose from together with an unlimited number of axes and 30 Palette components.	\$ 639	2
<b>TMS Software</b>	<b>Smooth Controls Pack</b> Feature-rich sophisticated looking & smoothly animated controls, far too many to list here. Supports every version of Delphi from Delphi 7 to 10.1 Berlin.	\$ 142	1
<b>Woll2Woll Software</b>	<b>FirePower 7.0 for RAD Studio</b> Data-aware component suite for Win32, Win64, Mac (OSX32), Android and iOS (32 & 64 bit). - Powerful, fast, efficient and flexible grid controls; - Versatile layout grid; - Powerful, fast and efficient list boxes; - Dynamically created data-entry forms; - Advanced lookup combo and lookup dialog controls	\$439	1
